

Pets Home & Garden Horse

MarMax products for pets

Product overview

- Vital Max Cat – Minerals for cats
- Vital Max Dog– Minerals for dogs
- Vital Max Cat– cat litter

Vital Max Cat

For improved animal health

Relief of the organism through

- ✓ Detoxification by binding harmful substances in the digestive tract
- ✓ Less oxidative stress
- ✓ Better feed conversion
- ✓ Prevention of nutrient losses (favored calcium and magnesium supply)

Effect

- ✓ Increases vitality and fitness
- ✓ Improves metabolism and is visible in expression and coat gloss
- ✓ Strengthens the natural resistance

Vital Max Dog

For improved animal health

Relief of the organism through

- ✓ Detoxification by binding harmful substances in the digestive tract
- ✓ Less oxidative stress
- ✓ Better feed conversion
- ✓ Prevention of nutrient losses (favored calcium and magnesium supply)

Effect

- ✓ Increases vitality and fitness
- ✓ Detoxification by binding harmful substances in the digestive tract
- ✓ Strengthens the natural resistance

MarMax products for Home & Garden

Product overview

- Soil Max – soil conditioner **Not available**
- Quattro Max –foliar fertilizer **Not available**
- Garden Fresh – fast composter
- Garden Fresh – odor inhibitor

Soil Max - soil conditioner

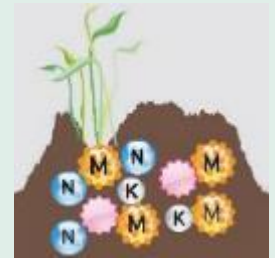

For fruits, vegetables and pot plants

Plant protection and strengthening

- ✓ Regulated soil moisture (better distribution of water)
- ✓ Protection during drought or temporary waterlogging
- ✓ Less tending needed
- ✓ Fast and healthy growth

Better fertilization effect

- ✓ Slow-release effect (slow, needs-based supply of nutrients, no leaching of nutrients)
- ✓ Avoidance of over-fertilization and saving of fertilizer
- ✓ Lasting improvement of soil quality

Quattro Max foliar fertilizer

For fruits, vegetables and pot plants

Plant protection and strengthening

- ✓ Quicker plant growth
- ✓ Improved rooting
- ✓ Increased stress resistance to heat and drought
- ✓ Increased resistance to herbivores and fungi
- ✓ Higher brix value and thus better quality

Better fertilization effect

- ✓ Slow-release effect (slow, needs-based supply of nutrients, no leaching of nutrients)
- ✓ Avoidance of over-fertilization and saving of fertilizer
- ✓ Lasting improvement of soil quality

Quattro Max leaf fertilizer

For fruits, vegetables and pot plants

Magnesium

- ✓ Promotes photosynthesis. The result is juicy green leaves and improved formation of biomass.

Calcium

- ✓ Affects the cell growth and the stability of the cell walls. This especially improves fruiting, the fruit properties and fertility.

Silicon

- ✓ Increases the strength of the plant structure and resistance to herbivores and fungi. Increases the stress resistance of the plant.

Garden Fresh – fast composter

Odor reduction and faster composting

Faster composting and less odor

- ✓ Faster composting
- ✓ Rapid and lasting bonding of odors
- ✓ Can be used all year round

Improved compost quality

- ✓ Increased compost quality
- ✓ Activation of microbiology

Garden Fresh – odor inhibitors

Permanent odor reduction

Less kitchen waste odor

- ✓ No more odor
- ✓ Inhibition of bacterial and germ development
- ✓ Binding of moisture
- ✓ Pest repellent

MarMax Products for horses

Product overview

- Max Vital – mineral Vital + Pro Digest
- Max Body – cool and care paste
- Max Clean – stable litter
- Mibi's Max – Mibi's straw pellets

Vital Max- Mineral Vital + Pro Digest

For compensation of nutrient losses

Relief of the organism through

- ✓ Detoxification by binding harmful substances in the digestive tract
- ✓ Less oxidative stress
- ✓ Better feed conversion
- ✓ Prevention of nutrient losses (facilitated calcium and manganese supply)

Effect

- ✓ Increased vitality and fitness
- ✓ Improves metabolism and is visible in expression and coat gloss
- ✓ Strengthens the natural resistance
- ✓ Shortens the regeneration phase for high-performance phases

Max Body Horse Cool and care paste
For tendons, ligaments and joints

Quick help for swelling and stressed joints

- ✓ Immediate relief of symptoms
- ✓ Cooling the horse's legs
- ✓ Rapid regeneration of tendons and joints
- ✓ Rapid recovery of the animals

100% natural effect

- ✓ Without pharmaceutical or chemical substances

Max Clean – stall hygiene

The additive for improved hygiene in the stable

Improved animal health

- ✓ Cleaner stable climate and relief of the airways by binding ammonia and moisture
- ✓ Better hoof health through drier litter
- ✓ Reduction of germs and prevention of fungal attacks

Better stable climate

- ✓ Stops the growth of fly larvae
- ✓ Binds moisture and odors

Practical application

- ✓ Up to 30% savings in daily re-littering
- ✓ Enhancement of the manure to make fertilizer
- ✓ Can be used in combination with conventional litter, resulting in low usage

MarMax Mibi's – Mibi's straw pellets

The litter for an optimal stable climate

Increase in animal health

- ✓ Better stable air (up to 1/3 fewer ammonia emissions)
- ✓ Optimal conditions for deep sleep through dry, soft lying surface
- ✓ Minimum dust exposure and protection of the sensitive lungs and airways (for allergy sufferers)
- ✓ Protection against thrush as well as hoof and respiratory diseases through the binding of ammonia and bacterial reduction

Economical and less effort

- ✓ Better absorbency (12x more than sawdust, 4x more than straw)
- ✓ Faster composting
- ✓ Reduced consumption (annual requirement: 1,000 kg) –only 1 m² necessary for annual requirement
- ✓ Better manure utilization by increased fertilizer value, faster decay and more disposal options (flat rent, thermal utilization, biogas, etc.) → 50% less manure!
